PROFESSIONAL SUMMARY

Versatile Software Engineer with 5+ years of experience designing scalable web applications, microservices, and high-performance backend architectures. Strong expertise in Python, JavaScript/TypeScript, cloud infrastructure, and modern frontend frameworks. Proven track record of collaborating across cross-functional teams to deliver secure, resilient software solutions.

WORK EXPERIENCE

Senior Software Engineer

TechScale Solutions

2023 – Present

- Architected and deployed distributed backend services using Python (FastAPI/Django) and Node.js, improving system throughput by 35%.
- Designed REST and GraphQL APIs integrating PostgreSQL, MongoDB, and Redis caching mechanisms.
- Mentored junior engineers, conducted code reviews, and championed CI/CD best practices with Docker and GitHub Actions.

Software Engineer

DataFlow Systems

2021 – 2023

- Developed full-stack web platforms using React, TypeScript, and Python REST frameworks.
- Engineered automated data processing pipelines handling 1M+ daily transactions.
- Optimized database queries and schema designs, reducing latency by 40%.

Junior Backend Developer

InnovTech Studio

2019 – 2021

- Implemented RESTful endpoints and integrated third-party payment gateways.
- Wrote comprehensive unit and integration test suites achieving 88% test coverage.

KEY PROJECTS

VigilanceAI — Predictive Analytics Platform

Built a real-time IoT and AI data streaming backend utilizing WebSockets, Python, and micro-agents.

PLACEMENT INFORMATION

Department: Engineering

Start Date: 09/01/2026

Manager: Karim El Amrani

Work Mode: Hybride

TECHNICAL SKILLS

Languages

Python

JavaScript

TypeScript

SQL

HTML/CSS

Frameworks & Libs

FastAPI

Django

React

Node.js

Express

Databases & Cloud

PostgreSQL

MongoDB

Redis

Docker

AWS

Git

EDUCATION

M.Sc. Software Engineering

Polytechnic University

2017 – 2019

B.Sc. Computer Science

State University

2014 – 2017

LANGUAGES

• **French:** Native

• **English:** Full Professional

• **Arabic:** Native
